In five minutes

1. **Create your account**
   Sign up at `/register` with your matric number.
2. **Select your courses**
   They are already ticked; untick any you are not taking.
3. **Check your timetable**
   Once the exams office publishes it, you see the date, time, hall and seat.
4. **Tap Navigate to Hall**
   On exam day, follow the live walking route to your hall.

ABOUT THIS GUIDE

Screens shown are illustrations with sample data. Buttons and labels are quoted exactly as they appear in the app — for example "Enroll" and "Complete Enrollment".

1 Getting started

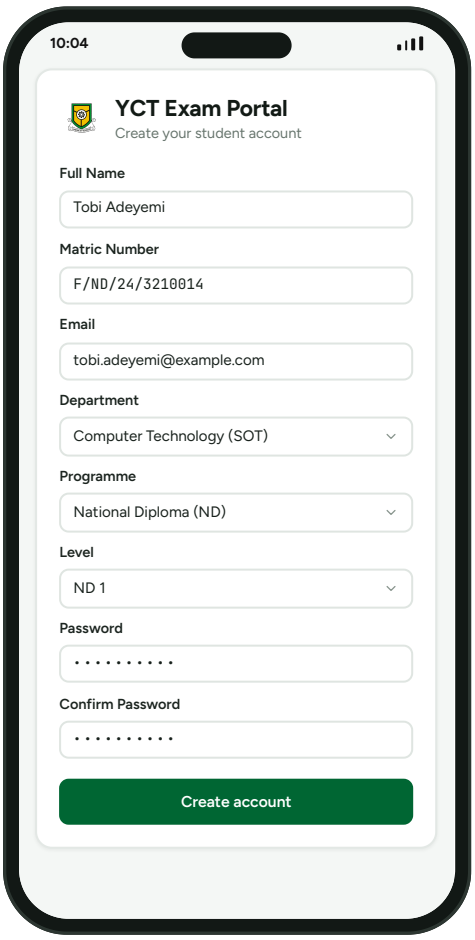

Create your account and choose your courses — it takes a couple of minutes.

Create your account

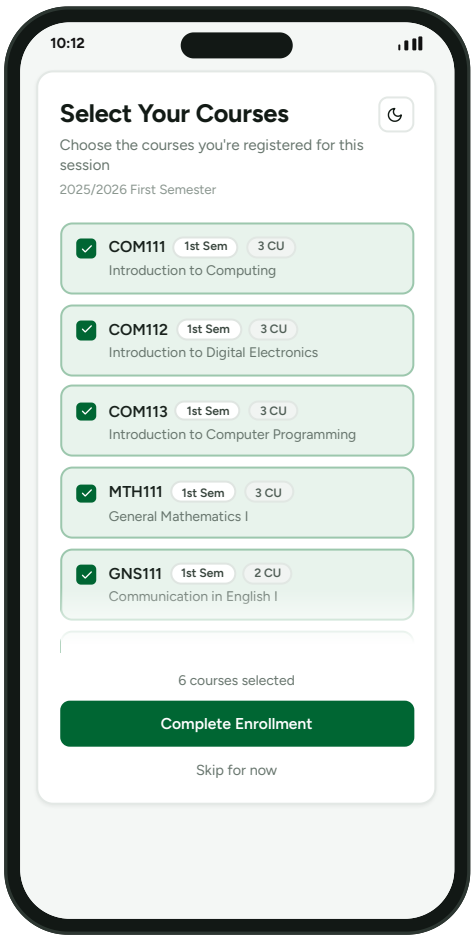

1. **Open the sign-up page**
   Go to `smart-exam-timetable.vercel.app/register` on your phone or computer.
2. **Enter your details**
   Full Name, Matric Number (for example `F/ND/24/3210001` — capitals are added for you), Email, then your Department → Programme → Level.
3. **Choose a password**
   Type it in Password and again in Confirm Password, then tap *Create account*. You are signed in straight away.

Choose your courses

1. **Select Your Courses**
   Right after sign-up you see the courses for your level and the current semester — all ticked.
2. **Untick any electives you are not taking**
   The counter shows how many courses are selected.
3. **Tap Complete Enrollment**
   You are taken to your timetable. (*Skip for now* goes there too; you can enrol later on the Courses tab.)

Sign up — your details and level.

Select Your Courses — everything pre-ticked.

Figure 1 — Creating an account and choosing courses.

ILLUSTRATION — SAMPLE DATA

2 Finding your way around

Four tabs, on your phone or on a computer.

Sign in at `/login` with your email and password. The portal has four tabs. On a **phone** they sit in a bar along the bottom of the screen; on a **computer** they are in a bar across the top, together with the light/dark switch and **Sign out**.

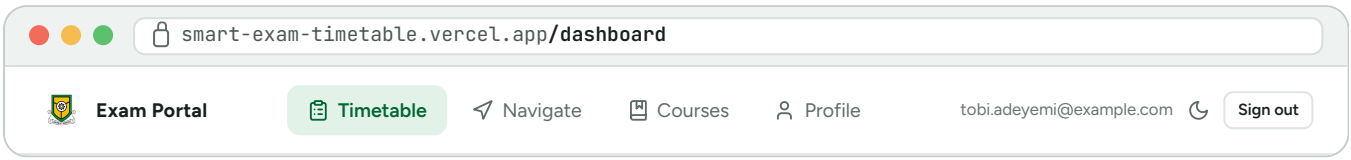

Figure 2 — On a computer: the tabs in the top bar. ILLUSTRATION — SAMPLE DATA

Tab	What you find there
Timetable	Your published exams: what is next (with a countdown), what is coming up and what is completed — with hall and seat.
Navigate	Every exam hall on campus, each with a map and live walking directions.
Courses	The courses for your level this semester: enrol or drop, and see your total credit units.
Profile	Your details, your avatar, the light/dark switch and Sign out.

TIP

Bookmark the portal — or add it to your home screen from your browser's menu — so it is one tap away on exam day. The portal opens in dark mode; switch to light mode on the Profile tab if you prefer.

Signing in next time

1. **Open the portal**
   Go to `smart-exam-timetable.vercel.app` — you are taken to the sign-in page.
2. **Enter your email and password**
   Then tap *Sign in*. You go straight to your Timetable.
3. **Following a link?**
   If you opened a link to a particular page, you are taken back to it after signing in.

On a phone

The same four tabs sit along the bottom of the screen. The highlighted tab shows where you are.

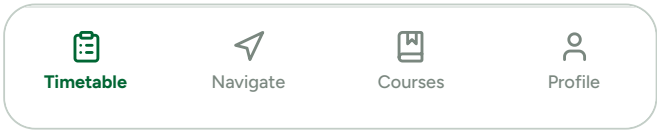

Figure 3 — The bottom tab bar on a phone. ILLUSTRATION

3 Your exam timetable

Everything you need for each paper, on one screen.

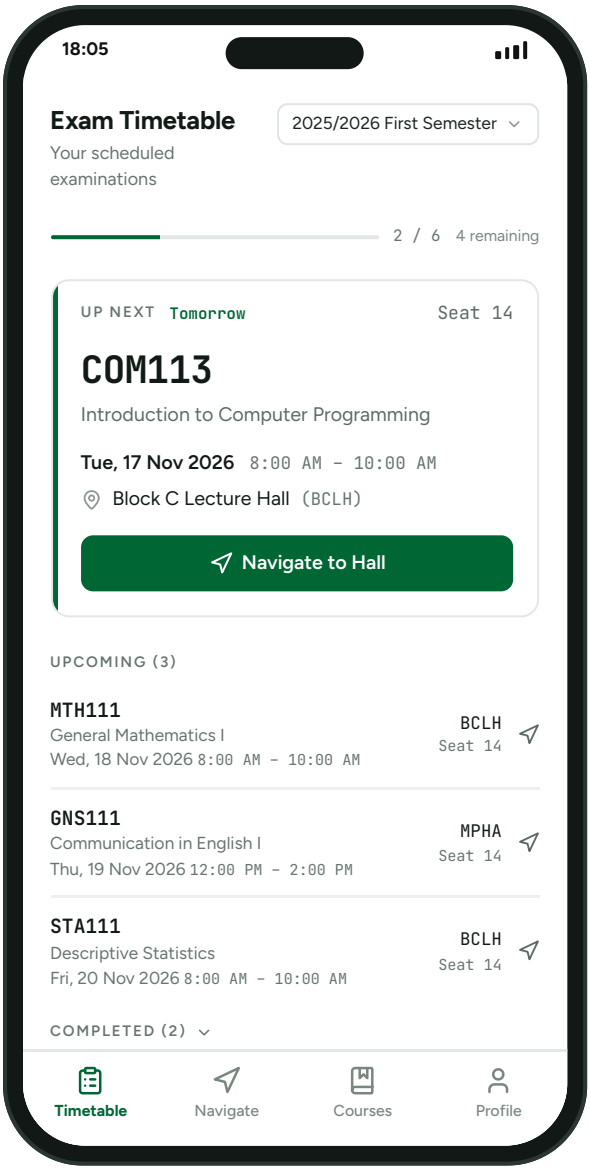

Figure 4 — The Timetable tab.

ILLUSTRATION — SAMPLE DATA

Your timetable appears as soon as the exams office **publishes** it. Use the session selector at the top if more than one session is shown.

Up Next

- A **countdown**: *Today*, *Tomorrow* or *In N days*.
- Your **seat number**, the course code and title.
- The **date and time**, and the **hall** name and code.
- **Navigate to Hall** — directions from where you are.

Upcoming and Completed

The progress bar shows how many papers are done ("2 / 6", "4 remaining"). **Upcoming** lists your later exams, each with its hall and seat. An exam moves to **Completed** once it has finished; when every paper is done you see "All exams completed".

READ HALL AND SEAT TOGETHER

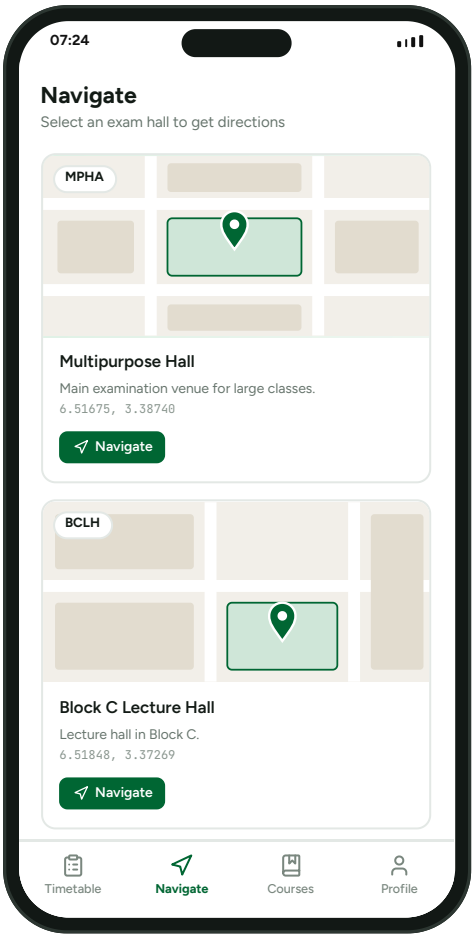

Seat numbers start at 1 in **each** hall. "Seat 14" in Block C Lecture Hall is a different seat from "Seat 14" in the Multipurpose Hall — always check both.

SEAT NUMBER NOT YET ASSIGNED?

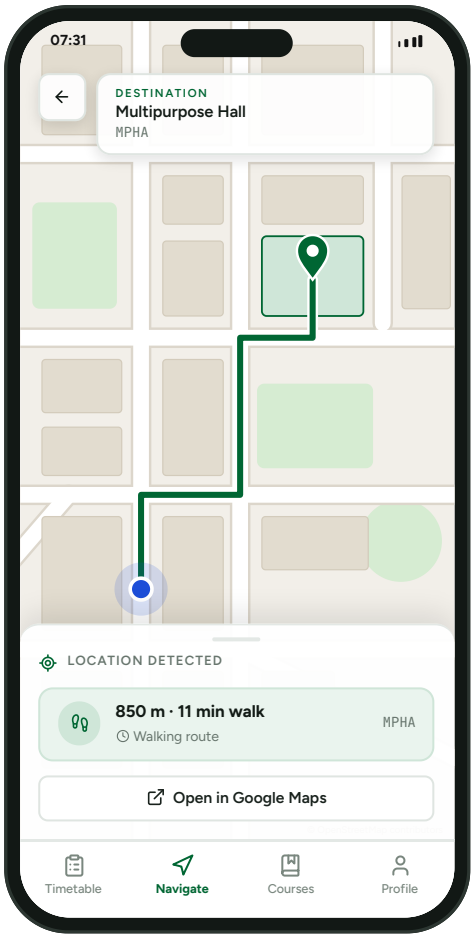

If your hall is shown with the notice "Seat number not yet assigned", please contact the exams office.

4 Getting to your exam hall

Live walking directions from wherever you are on campus.

Navigate — every exam hall.

The map — you, the hall and the route.

Figure 5 — The hall directory and live directions.

ILLUSTRATION — SAMPLE DATA

1 Open the directions

Tap **Navigate to Hall** on your timetable, or open the **Navigate** tab and tap **Navigate** on any hall.

2 Allow location access

Your browser asks for permission the first time. The blue dot shows where you are; the green pin is the hall.

3 Follow the route

The green line is the walking route, with the distance and time — for example "850 m · 11 min walk". It updates as you move; if the route service can't be reached, a straight line and an estimated walking time are shown instead.

4 Prefer Google Maps?

Tap **Open in Google Maps** for turn-by-turn walking directions. Tip: check the route the day before your first paper, and set off early.

5 Managing your courses

Keep your course list right, so your timetable is right.

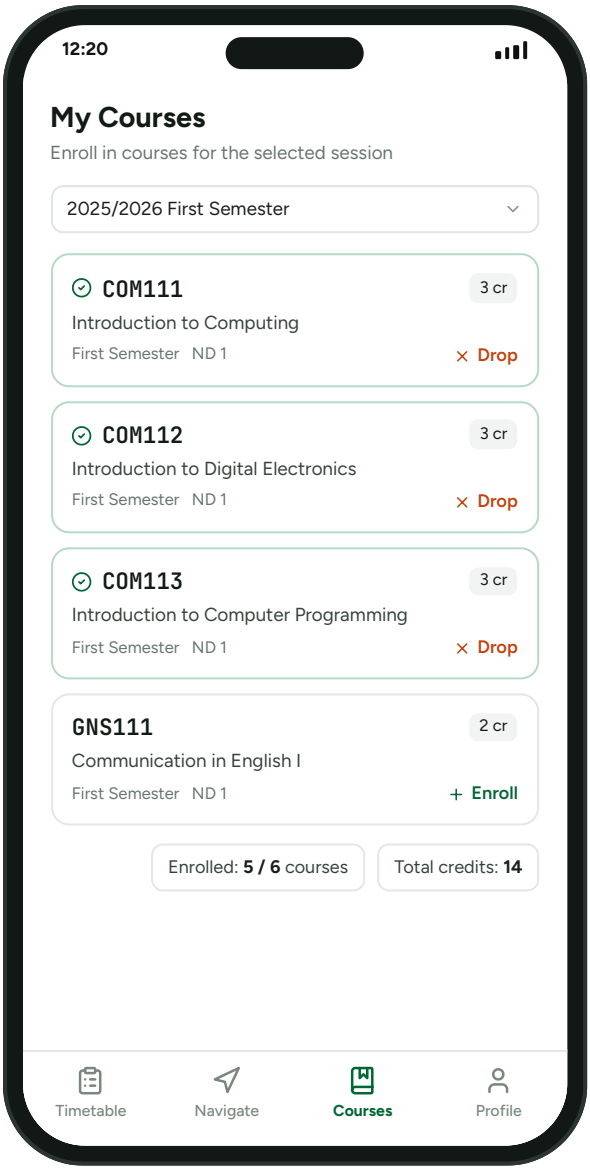

Figure 6 — The Courses tab.

ILLUSTRATION — SAMPLE DATA

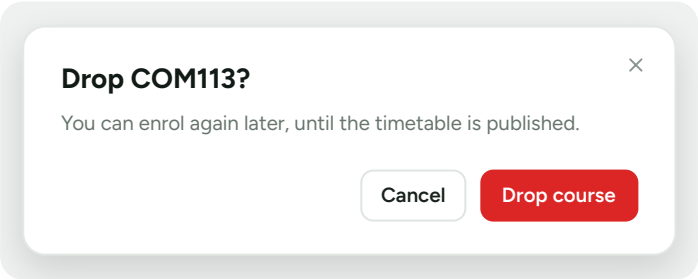

The **Courses** tab lists the courses for your level in the selected session's semester. The session you pick is remembered on the Timetable tab too.

You see	What it means
+ Enroll	You are not taking this course yet. Tap to add it.
× Drop	You are enrolled. Tap and confirm to remove it.
Locked	The timetable for this course is published, so it stays on your list.

At the bottom you can see how many courses you are enrolled in and your total credit units.

GOOD TO KNOW

- If you enrol after the timetable has been generated, you are given a free seat automatically when there is room.
- Dropping a course before publication frees your seat, and you can add the course again later.
- Make your changes before the timetable is published.

Dropping asks for confirmation first. · ILLUSTRATION

6 Your profile

Your details, your avatar and your preferences.

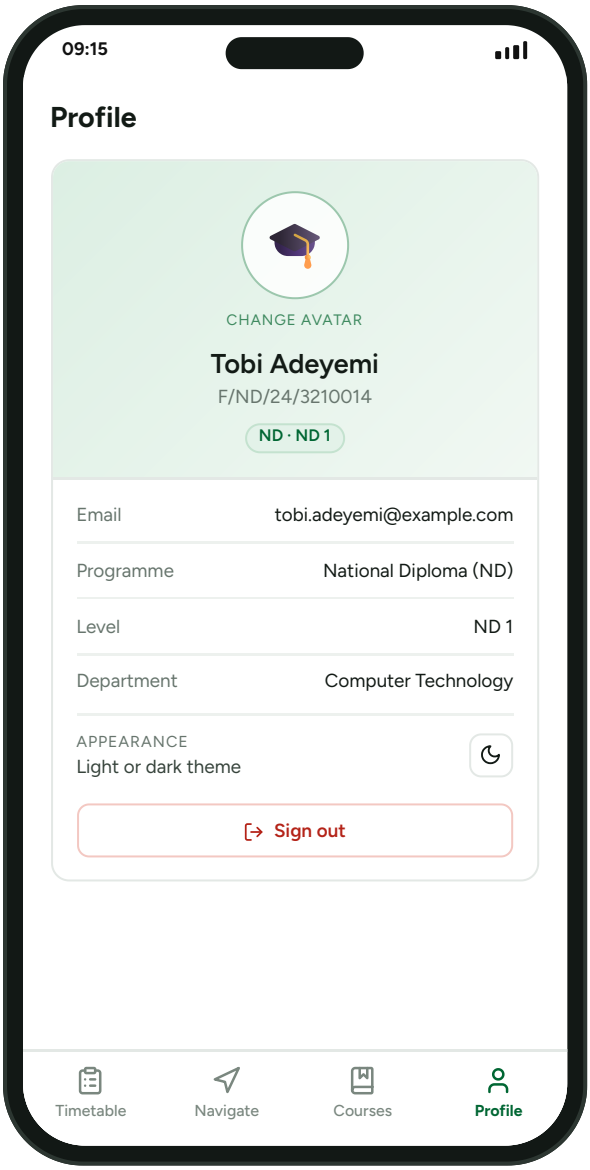

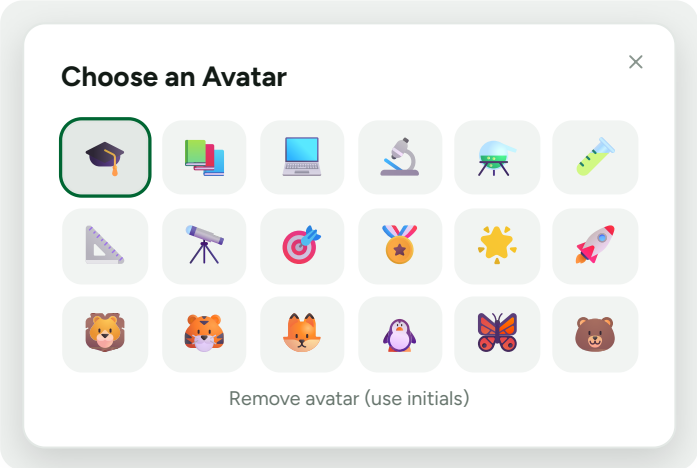

Figure 7 — The Profile tab.

ILLUSTRATION — SAMPLE DATA

The **Profile** tab shows your name, matric number, email, programme, level and department.

- [ ] **Choose an avatar** — tap your picture or *Change avatar* and pick an emoji.
- [ ] **Light or dark theme** — use the switch under Appearance.
- [ ] **Sign out** — always sign out on a shared phone or computer.

> **DETAILS NEED CORRECTING?**
>
> If your name, matric number, department or level is wrong, ask the exams office — they can update your record for you.

The avatar picker. · ILLUSTRATION

7 Frequently asked questions

Quick answers to common questions.

Q My timetable is empty.

Your timetable appears once the exams office publishes it. Check that the right session is selected at the top, and that you are enrolled in your courses on the Courses tab.

Q I see "Seat number not yet assigned".

Your hall is known but your seat number is not set yet. Please contact the exams office.

Q I registered in the wrong department or level.

Contact the exams office — they can correct your department, programme and level. Your sign-in stays the same; then check your courses on the Courses tab.

Q I forgot my password.

Contact the exams office. They can set a new password for you, which you then use to sign in.

Q Location isn't working.

Allow location access for the site in your browser settings and make sure your phone's location is switched on. The portal must be opened over a secure (https) address — use `https://smart-exam-timetable.vercel.app`. You can always tap **Open in Google Maps**.

Q Why can't I drop a course?

Courses whose timetable has been published show *Locked* and stay on your list. Speak to the exams office if something needs to change.

Q Can I use the portal on a computer?

Yes. It works in any modern browser — the tabs are simply at the top of the screen instead of the bottom.
